Professional Summary

I am highly passionate about creating modern and innovative websites using React, and I continuously explore new frontend technologies to stay up to date with the latest trends. While my main focus is on frontend development, I also have a foundational understanding of backend development. I have working knowledge of Node.js and the Prisma database, and I am capable of contributing to full-stack projects at a basic level. I am eager to further improve my skills and am highly motivated to participate in real-world projects that make a meaningful impact. I'm passionate about building clean, reliable systems and continuously improving my skills through new technologies. With a frontend focus and some backend experience, I aim to grow as a developer. I'm proactive, collaborative, and enjoy solving realworld problems as part of a team.

Education: B.C.Sc. (Hons)

University of Computer Studies (Myeik)

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML, CSS

Frontend Frameworks & Libraries: React.js, shadcn/ui, Tailwind CSS, React Router
